AREA OF INTEREST

Application Development and software designing, Graphics Designing.

APPLICATIONS

- iOS application for tourists for the assistance of the exploration of "The Pink City of Jaipur".
- iOS application for a news channel-NewsNation, helps the viewer to get latest updates from across the globe on their mobile phones.
- iOS application for Jaipur metrorail, an upcoming project by Jaipur MetroRail Co-operation(JMRC).
- Graphic design for website Galtajipeeth. (<http://www.galtaji.org>).
- Graphic design for Indian Institute Health Management Research (IIHMR).

APPLICATION AND PROJECT DETAILS

1. APPLICATION FOR MOBILE PHONES

- Developed an iOS mobile application which assists the tourists to locate the Tourist spot of the Pink City - Jaipur in Rajasthan, India. Application helps finding the tourists spots and other places to visit in the entire city. **(Available on iTunes.)**
- Developed an iOS mobile application for national news channel "NewsNation". This application will update latest news to the viewers automatically through a Live feed direct to their Mobile handsets. This application will provide latest news differentiated categorically. **(currently removed from iTunes.)**
- Developed an iOS mobile application for the upcoming metro rail project in Jaipur city. This will help the people of Jaipur to roam around the city with an ease via metrorail. Application consists of all the necessary detail, a passenger should know about before or while travelling in a metrorail. **(in process with iTunes.)**

2. GRAPHICS DESIGN

- Designed graphics for the website www.galtaji.org . This famous Pilgrims Paradise popularly known as Shri Galtaji is a Holy Ashram and a governing office of the supreme of Shri Vaishnava tradition which is also mentioned in many holy texts and scripts of the world.
- Graphics designed for the website www.iihmr.org. The Indian Institute of Health Management Research (or IIHMR) is an institute in Health & Hospital Management. Established in 1984, in Jaipur, IIHMR is the first of its kind in India, with attention focused on health systems improvement and management in co-operation with Johns Hopkins University, USA.
